I. CALL TO ORDER AND WELCOME
Mr. Allan Bense, Chairman

Chairman Bense called the meeting to order at 8:35 a.m. and Lynna Sands conducted the roll call.

II. APPROVAL OF MINUTES
• The September 7, 2012, Meeting Minutes were approved as presented.

III. PRESIDENT’S REPORT
Dr. Eric Barron, President

President Barron reported that the U.S. News and World Report rankings placed FSU 97th among all universities and 42nd among public universities. This is the highest FSU ranking in recent years.

President Barron discussed the Gunter Building, located on campus at the gateway near the intersection of West Tennessee Street and Woodward Avenue. The Gunter Building housed the State of Florida’s Geological Survey, and the University has attempted to acquire the property for more than 40 years. The property was formally transferred from the State of Florida to FSU in October 2012. During the last session, the Legislature approved planning funds for the Earth, Ocean, and Atmospheric facility, which is planned for this property.
President Barron reported that FSU has a balanced budget for the first time since 2006-2007. Additionally, this is the first year in five years that more faculty have been hired than lost. Since 2006, FSU lost more than 200 faculty members; 21 new faculty were hired this year. The reduction in number of faculty negatively affects the amount of grant and contract funds awarded to FSU, since there are fewer faculty to develop grant and contract proposals.

Barron provided a progress report on “The Big Ideas,” FSU’s campaign fund raising priorities:

- **Entrepreneurial University:** The College of Business was authorized to offer entrepreneurial courses to non business majors; additional faculty will be hired for this purpose.
- **As part of its STEM initiative, FSU has an opportunity to leverage the research conducted in the National High Magnetic Field Laboratory, Aero-propulsion, Mechatronics and Energy laboratories, the FAMU-FSU College of Engineering and science disciplines across the university.**
- **The Successful Longevity initiative spans the full spectrum of academic disciplines in the study of aging; a Director and support staff will be hired during the next few months.**
- **The Veterans Center now has a Director and administrative assistant. The Veterans Center is temporarily housed in the Pearl Tyner House at the FSU Alumni Center until funds are raised to build the Veterans Legacy Complex. The second annual Student Veterans Film Fest will take place on November 12, 2012; the first Torchlight Award to recognize an outstanding Director will be presented during the Film Fest.**
- **Construction on the Honors, Scholars and Fellows house has commenced, even though there is not sufficient funding to complete the facility. The building will house the Office of Undergraduate Research Honors Office, the Office of National Fellowship and classrooms for Honors students.**
- **The Creative Crucible will incorporate elements of the entrepreneurship initiative as well as the College of Motion Picture Arts, School of Theatre, and College of Music. FSU recently purchased land adjacent to the West Tennessee Street parking garage and the Fine Arts Building; the Creative Crucible will be located on this site.**
- **The Garnet & Gold Scholars Society is based on five engagement areas – leadership, internship, service, international and research. The first 124 scholars have graduated. An additional Student Affairs staff person has been hired to work with the program and support the high participation rate.”**
