- ix. Questions:
1. Trustee Sargeant: Instrumental for high school students to have this
 2. Chair Thiel: It would be interesting to hear the feedback from students and what their experience was
 - a. Stallings: We are planning to do a pilot group in spring to get some feedback. We do not have the BOG dashboard yet, which is why we cannot pilot in the fall
 3. Trustee Janvier: will this be incorporated into orientation?
 - a. Stallings – they will receive initial information in orientation; they get access as soon as they register for 1 class
 - b. Hoover -We will introduce to family members from career center at orientation
 - c. Barnhill – part of the problem of this is tracking the students. Therefore, we have to wait until they are officially in the system i.e. canvas
 - d. VP Hecht – this will be a very valuable tool for those who are undecided, a lot of benefits towards retention and metrics
 4. VP Hecht - does it include information if they know they want to go into law such as majors, courses, grades they must get

 2. Excel spreadsheet that shows a snapshot of where we have been and where we are now
 3. In all 8 years, #1 way that students found employment was through career center engagement
 4. Music and fine arts is stray because most music students are on contracts and not full time employed
 5. This is a survey, not knowledge based.
 - a. We are starting to pull data from LinkedIn to get more accurate data
 - b. Our students are doing great and matching all rates across the nation
 - c. We are not having as great of an impact in the education as we would like
 - i. Have to get graduate students started early
 - ii. HB1216 will help engage earlier to get them ready for graduate school
 - d. Thiel – Criminology and Nursing are normally starved for talent. 100% of nurses should be getting jobs
 - i. Hoover – some if it is geography, some are taking a gap year, hardly any nurses go on to graduate school
 - ii. For criminology – not all students are going to law enforcement. Federal and state jobs take longer to get into
 - e. Sargeant – Is this all from a graduate student
 - i. Hoover: This is all from undergraduate survey which is what we pay attention to for metrics and strategic initiatives
